## **INTD 1050 Optimizing Learning**

Tina Chong.

Non-Standard Rotation. Spring 2024. Enrollment limit: 50. .5  
Credit Credit/D/F Only.

This course is an opportunity to reflect on past learning successes and unlock students' highest potential. Students in this course will study the science of learning, develop strategies and habits to enhance existing strengths, and collaboratively discuss how to successfully meet learning challenges. This course is grounded in the fields of psychology and education.

Previous terms offered: Spring 2023, Spring 2022.

## **INTD 2516 (c, DPI) Teaching and Learning Languages and Cultures**

Non-Standard Rotation. Enrollment limit: 35.

This course addresses the intersections between world language pedagogy, antibias education, and metalinguistic awareness. Through engagement with current research, students will explore theories of language acquisition and practices of intercultural communication from infancy through adulthood. The course will foster engagement in reflective practice concerning teaching and learning languages and cultures in the classroom, including designing and implementing short lesson plans tied to curricular goals. Students will develop oral and written proficiencies to engage with movements in language advocacy and representation. These experiences will be supported by a partnership with a team of Brunswick public school teachers and the Multilingual Mainers program. The course is open to all students with at least intermediate proficiency in a language other than English.

## **INTD 3001 Health, Culture, and Society**

Non-Standard Rotation. Enrollment limit: 16.

Focuses on the study of health from a wide array of disciplinary perspectives—across the sciences, social sciences, and humanities. Possible topics include epidemiology, medical ethics, environmental health, public policy, disability, nutrition, pharmaceuticals, health inequalities, and mental illness—as well as the history, globalization, and literary representations of health. It is targeted toward students with previous academic (or work) experience in a related field, and all participants will be expected to bring material learned from another class to the seminar table in this one. Student-led discussions and projects form the core of the class, which may also feature guest lectures from Bowdoin and/or external faculty.

Previous terms offered: Fall 2020.
